DETAILED ACTION

Applicant's Arguments

1. The applicant's amendments to the claims have resulted in a new ground of rejection.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.
3. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01.

Claim 1

Lines 6-8 recite "determining via the computer model cost values arising in at least one component of the installation, taking into account earnings from a final product." The "earnings from a final product" is produced by the installation of all of the components. Therefore the cost of installation of all of the components would have to be subtracted from the earnings from a product produced by the entire installation.

The missing steps are the steps, which explain how the cost values for installation of a single component could be determined by taking into account delivery of a final product from all components constituting the facility.

Appropriate correction and clarification is required.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Smith (3617717).

Addressing those claim limitations, which were clearly understood is the basis for this rejection.

On lines 26 to 30 in column 2, Smith discloses considering optimization by controlling installation costs. On lines 31-33, Smith teaches reaching the cost objective by considering the profit or earnings from the product.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
